Lycée Fulbert, Chartres

28

Semaine des mathématiques

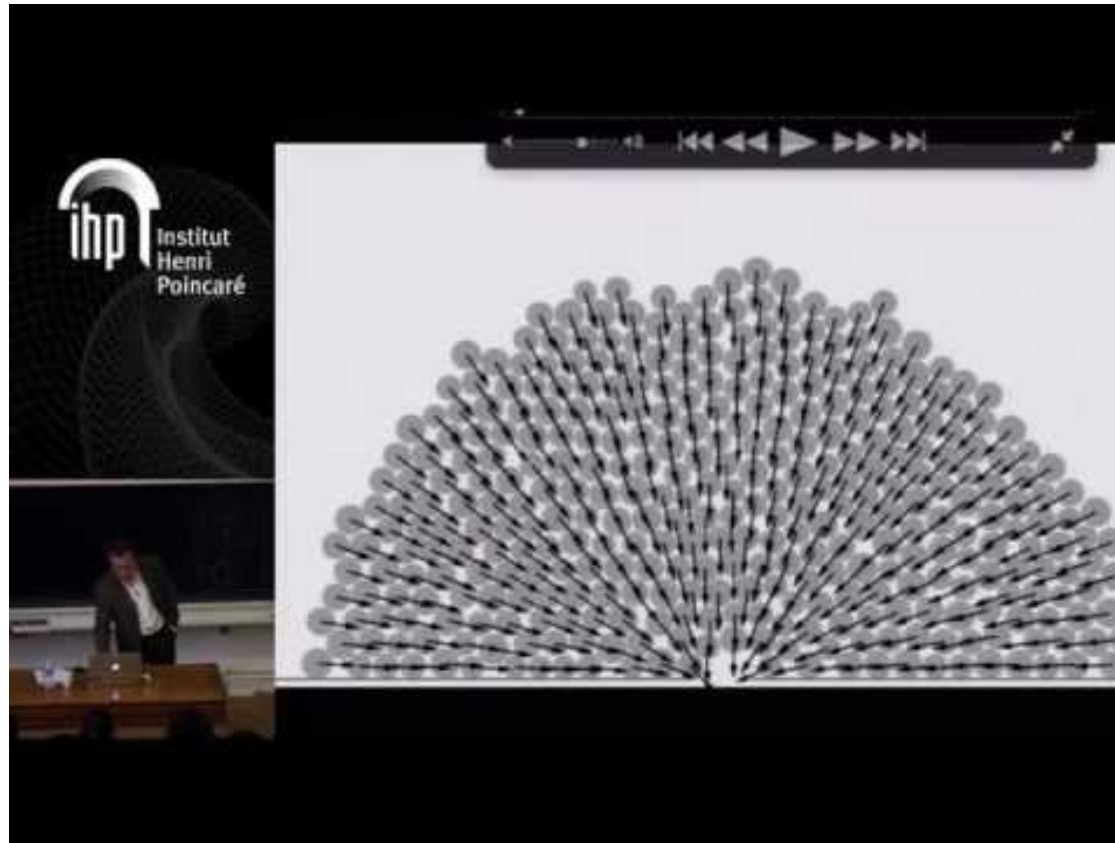

du 15 au 21 mars 2021

Peut-on modéliser une foule mathématiquement ?

1) Zeste de Science/Les originales du CNRS :

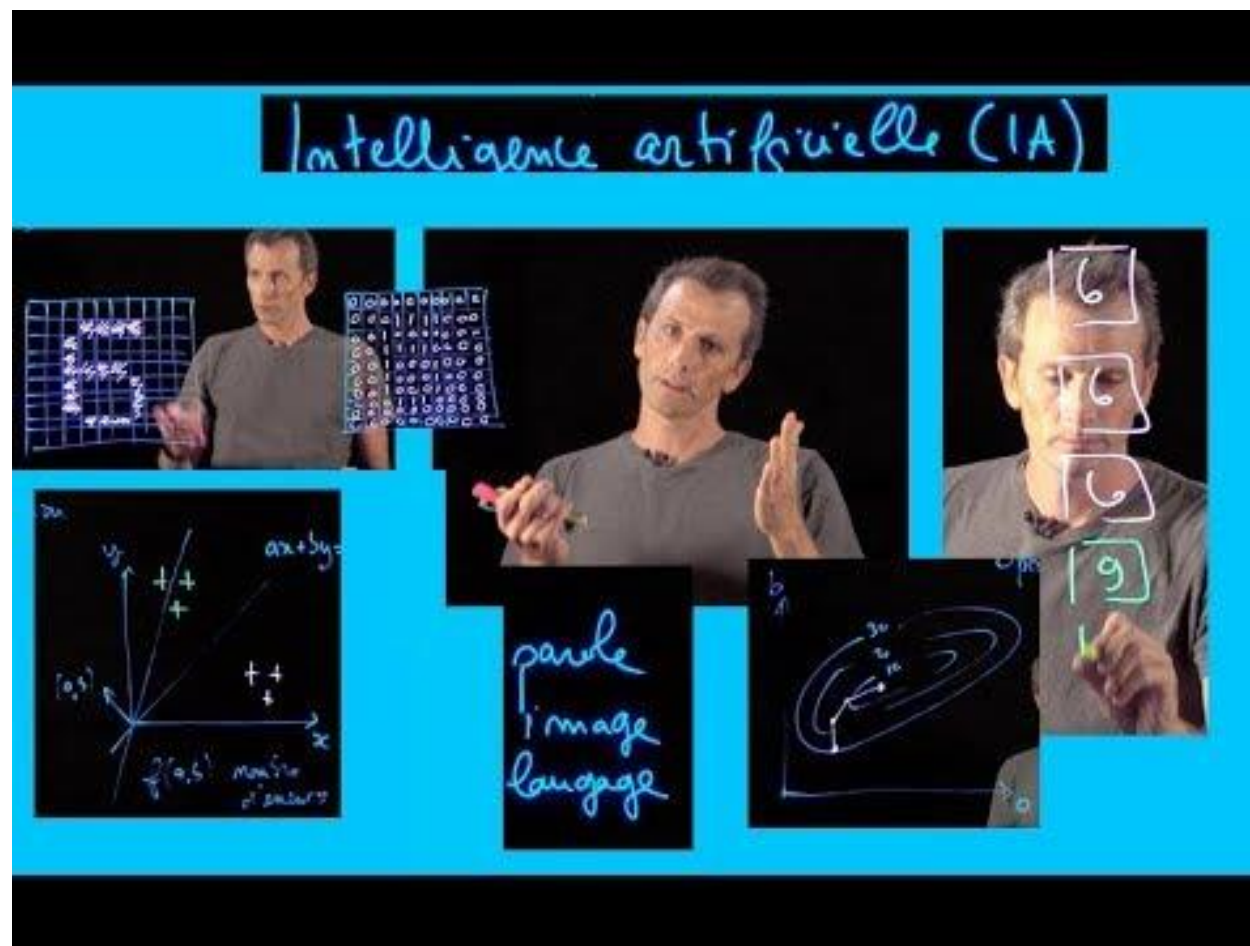

2) Pour approfondir

Conférence à
l'Institut Henri
POINCARÉ en 2015
de Bertrand MAURY
(1h13min)

Intelligence artificielle

Le format A4

The image shows a video recording of a mathematics lesson. On the left, a man with glasses is holding a white sheet of paper. On the right, a chalkboard displays the following content:

$(\sqrt{2})^2 = 2$

Théorème de Pythagore

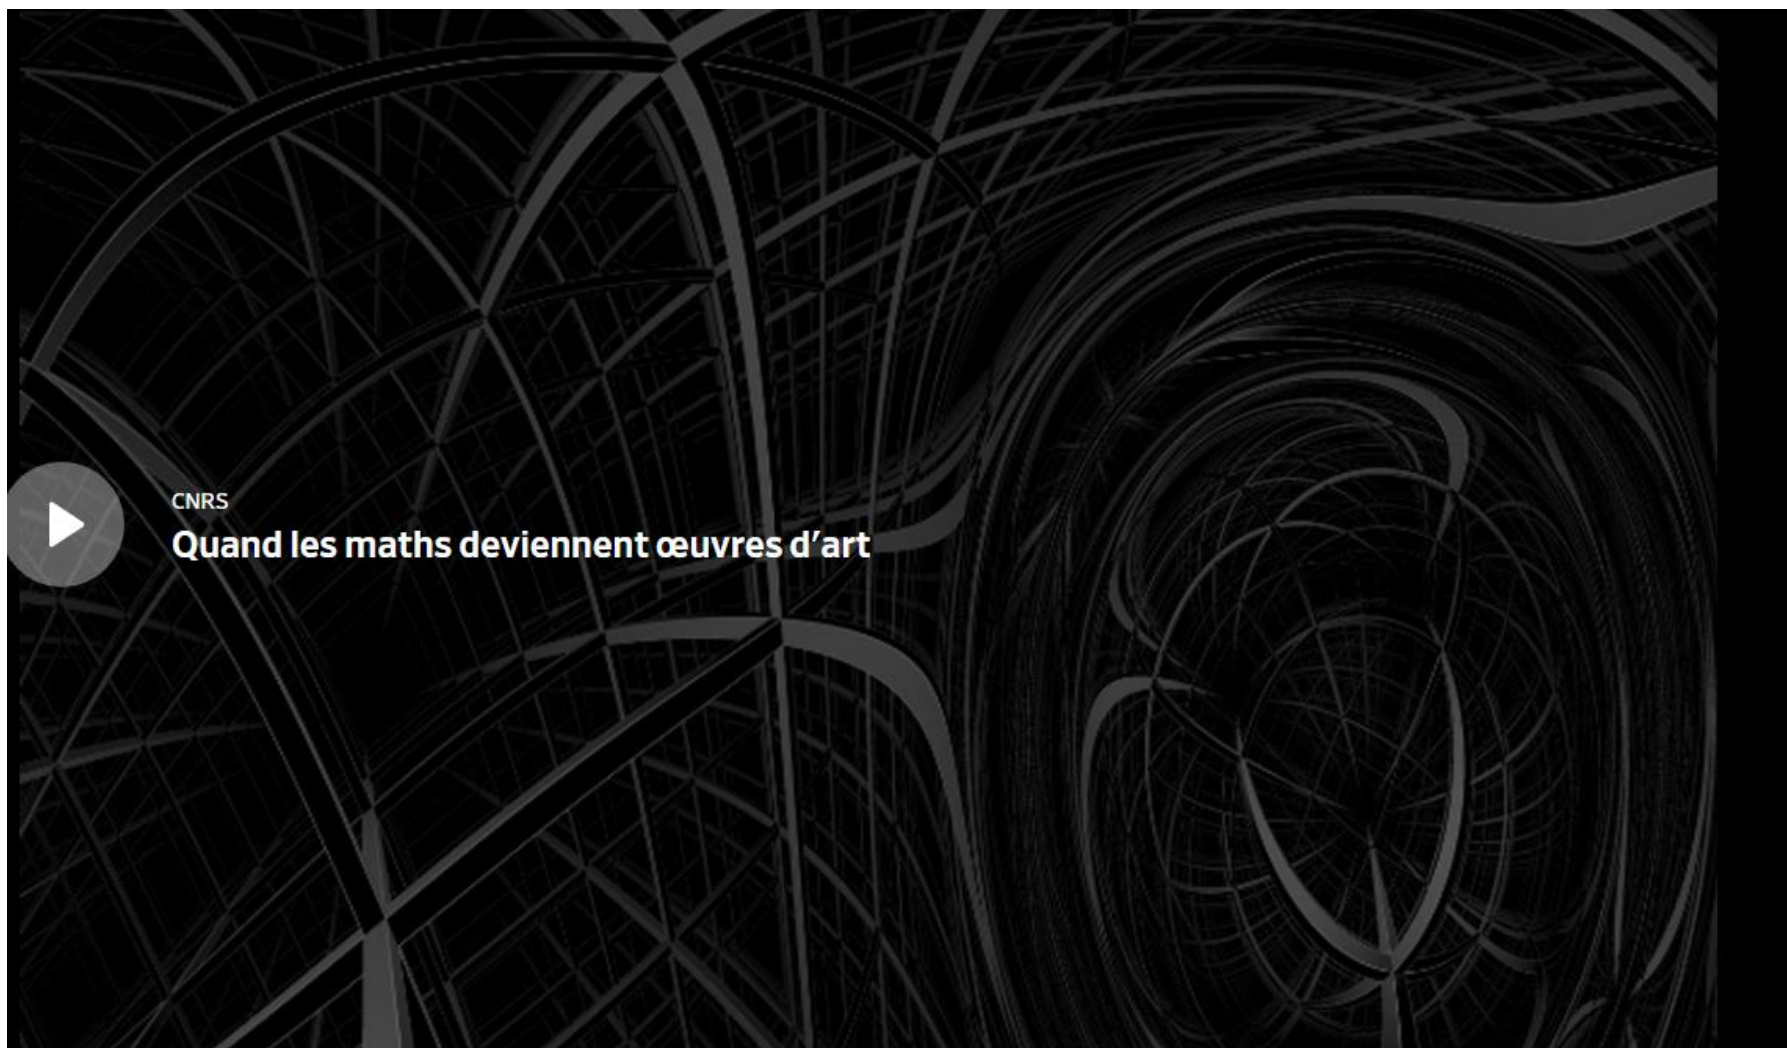

$d^2 = 1^2 + 1^2 = 2$

A diagram of a square with side length 1 and diagonal d is also shown.

Magie en base deux
